

Pre-K students are naturally curious about their world, and STEMscopes Early Explorer understands how to capture that interest with engaging, integrated science targeted to their interests and abilities. With the adoption of the new STEMscopes Early Explorer program, teachers will receive support in accessing all the features of the program to fine-tune their instructional strategies to meet the wide range of student developmental levels.

The Outcomes

Participants will:

- Gain valuable science background that will enhance science instruction
- Experience hands-on practice navigating the Early Explorer digital platform
- Work with hands-on materials used in our unique learning centers/stations
- Plan for learning using Early Explorer login, material kits and/or book sets

The Offer

Allow us to customize your professional learning session to address your district's or school's unique needs, resources, and schedules. Face to Face 3-hour session for up to 50 participants @ \$1600.00.

face-to-face learning

available as a webinar

The Audience

Pre-K classroom teachers, teacher leaders, school administrators, curriculum specialists, and instructional coaches.
