

Every educator knows that creating an environment where students are comfortable asking and answering questions leads to deep learning and high engagement. Trying to differentiate and ask meaningful questions can often be difficult for even seasoned teachers. Take a journey with our professionally trained STEM coaches and experience the art of asking questions that have meaning. This session will present and use a variety of resources that participants will be able to take directly back to their classroom.

The Outcomes

Participants will:

- Experience strategies and structures for making thinking visible
- Learn how to implement ideas that help to reveal student misconceptions
- Experience activities that include the proper use of wait time
- Receive resources and ideas designed to increase cognitive rigor in the classroom.

The Offer

Allow us to customize your professional learning session to address your district's or school's unique needs, resources, and schedules. Face to Face 3-hour session for up to 50 participants @ \$1600.00.
