

Instructional Practices Workshops IMPLEMENTING PROJECT BASED LEARNING (PBL)

Project Based Learning (PBL) opens the door to individual and group learning that allows students to collaborate and explore real-world problems. Learning how to facilitate the use of 21st century skills, including collaboration, communication, responding to feedback, and presentation, is essential for every educator. Our professionally trained STEM coaches from the National Institute of STEM Education (NISE) will lead participants through a variety of hands-on experiences in project-based learning. Confidence and knowledge will increase upon completion of this session!

The Outcomes

Participants will:

- Learn how to design and introduce project based learning
- Gain strategies that will increase student understanding using real-life scenarios
- Understand how to best facilitate the inquiry side of the investigation process
- Learn how to assist students to work autonomously to design solutions

The Offer

Allow us to customize your professional learning session to address your district's or school's unique needs, resources, and schedules. Select the delivery method that works best for you: Face to Face 3-hour session for up to 50 participants @ \$1600.00 OR a Self Paced Online Course @ \$39.00 per participant.
