

When adopting a new instructional program for teachers to help students succeed in science, receiving implementation support is paramount if the program is to be used to its best advantage. STEMscopes provides implementation training to campuses and districts so teachers will be given the maximum opportunity to instruct using quality resources in a stress-free, productive, and engaging format. Through hands-on, inquiry based strategies, teachers will develop an understanding of how STEMscopes is set up, where resources are located, and how to glide through lesson planning.

The Outcomes

Participants will:

- Learn to navigate the STEMscopes NGSS digital platform
- Identify resources within STEMscopes that will provide teacher background and assistance in effective planning for learning
- Gain hands-on experience with elements within a scope

The Offer

Allow us to customize your professional learning session to address your district's or school's unique needs, resources, and schedules. Select the delivery method that works best for you: Face to Face 3-hour session for up to 50 participants @ \$1600.00 OR a Self Paced Online Course @ \$39.00 per participant.

face-to-face learning

available as a webinar

self-paced online learning (coming soon)
