

When adopting a new instructional program for teachers to help students succeed in science, receiving implementation support is paramount if the program is to be used to its best advantage. STEMscopes provides implementation training to campuses and districts so teachers will be given the maximum opportunity to instruct using quality resources in a stress-free, productive, and engaging format. Through hands-on, inquiry based strategies, teachers will develop an understanding of how STEMscopes is set up, where resources are located, and how to glide through lesson planning.

### **The Outcomes**

Participants will:

- Learn how to navigate the ReTEKS digital program
- Experience hands-on centers included within the ReTEKS program
- Plan for success using ReTEKS (countdown to STAAR)

### **The Offer**

Allow us to customize your professional learning session to address your district's or school's unique needs, resources, and schedules. Face to Face 3-hour session for up to 50 participants @ \$1600.00

face-to-face learning

available as a webinar

### **The Audience**

5th, 8th, or Biology classroom teachers, teacher leaders, school administrators, curriculum specialists, and instructional coaches.
